Subject Index Volume 17

Adjustable dosage regimen, hormone replacement therapy, bleeding pattern, 123
Age at menopause, climacteric symptoms, factors influencing age at menopause, 63
Age, post-menopausal, serotonin, ovariectomy, oestrogen, 23
Apolipoproteins, menopause, hormone replacement, lipids, 113
Attitude towards menopause, well-being, menopausal status, medical attention, 77

Bleeding pattern, hormone replacement therapy, adjustable dosage regimen, 123
Body shape, climacteric complaints, subcutaneous fat distribution, 167
Bone mineral density, osteoporosis, fractures, menopause, oophorectomy, tobacco-smoking, epidemiology, 39
Bone mineral density, osteoporosis, nandrolone decanoate, bone turnover, bone pain, 211
Bone mineralisation, osteoporosis, estrogen substitution therapy, 205
Bone pain, osteoporosis, nandrolone decanoate, bone mineral density, bone turnover, 211
Bone turnover, osteoporosis, nandrolone decanoate, bone mineral density, bone pain, 211

Calcitonin treatment, menopause, hormone replacement therapy, growth hormone, gonadotrophins, osteocalcin, 51
Cardiovascular disease, menopause, ovariectomy, hysterectomy, lipid metabolism, 181
Climacteric complaints, body shape, subcutaneous fat distribution, 167
Climacteric complaints, general population study, retrospective analysis, socio-economic factors, menopausal status, five point-analysis, 155
Climacteric symptoms, age at menopause, factors influencing age at menopause, 63
Coagulation, menopause, fibrinolysis, fibrinogen, 17

Endometrial hyperplasia, endometrium, estrogens, menopause, progestational hormones, uterine neoplasms, 197

Endometrium, endometrial hyperplasia, estrogens, menopause, progestational hormones, uterine neoplasms, 197
β-Endorphin, oestrogen, ovariectomy, hypothalamus, rat, 5
Epidemiology, osteoporosis, fractures, bone mineral density, menopause, oophorectomy, tobacco-smoking, 39
Estrogen replacement therapy, lipid metabolism, transdermal estradiol, 191
Estrogen substitution therapy, osteoporosis, bone mineralisation, 205
Estrogens, endometrial hyperplasia, endometrium, menopause, progestational hormones, uterine neoplasms, 197

Factors influencing age at menopause, age at menopause, climacteric symptoms, 63
Fibrinogen, menopause, coagulation, fibrinolysis, 17
Fibrinolysis, menopause, coagulation, fibrinogen, 17
Five point-analysis, climacteric complaints, general population study, retrospective analysis, socio-economic factors, menopausal status, 155
Fractures, osteoporosis, bone mineral density, menopause, oophorectomy, tobacco-smoking, epidemiology, 39
Fractures, osteoporosis, risk factors, population based, menopause, hormone replacement therapy, 89

General population study, climacteric complaints, retrospective analysis, socio-economic factors, menopausal status, five point-analysis, 155
Gonadotrophins, menopause, hormone replacement therapy, growth hormone, calcitnonin treatment, osteocalcin, 51
Growth hormone, menopause, hormone replacement therapy, gonadotrophins, calcitnonin treatment, osteocalcin, 51

Headache, menopause, ovariectomy, sex hormones, 31

Hormone replacement therapy, adjustable dosage regimen, bleeding pattern, 123
Hormone replacement therapy, menopause, growth hormone, gonadotrophins, calcitnonin treatment, osteocalcin, 51
Hormone replacement therapy, osteoporosis, risk factors, population based, menopause, fractures, 89
Hormone replacement, menopause, lipids, apolipoproteins, 113
Hypothalamus, β-endorphin, oestrogen, ovariectomy, rat, 5
Hysterectomy, menopause, ovariectomy, lipid metabolism, cardiovascular disease, 181

Lipid metabolism, estrogen replacement therapy, transdermal estradiol, 191
Lipid metabolism, menopause, ovariectomy, hysterectomy, cardiovascular disease, 181
Lipids, menopause, hormone replacement, apolipoproteins, 113

Medical attention, well-being, attitude towards menopause, menopausal status, 77
Men's sexuality, middle-aged men, methods of investigation, volunteer bias, sexual behaviour, sexual attitude, 139
Menopausal status, climacteric complaints, general population study, retrospective analysis, socio-economic factors, five point-analysis, 155
Menopausal status, well-being, attitude towards menopause, medical attention, 77
Menopause, coagulation, fibrinolysis, fibrinogen, 17
Menopause, endometrial hyperplasia, endometrium, estrogens, progestational hormones, uterine neoplasms, 197
Menopause, headache, ovariectomy, sex hormones, 31
Menopause, hormone replacement therapy, growth hormone, gonadotrophins, calcitnonin treatment, osteocalcin, 51
Menopause, hormone replacement, lipids, apolipoproteins, 113
Menopause, oophorectomy, pituitary, prolactin, 101
Menopause, osteoporosis, fractures, bone mineral density, oophorectomy, tobacco-smoking, epidemiology, 39
Menopause, osteoporosis, risk factors, population based, hormone replacement therapy, fractures, 89
Menopause, ovariectomy, hysterectomy, lipid metabolism, cardiovascular disease, 181
Methods of investigation, middle-aged men, men's sexuality, volunteer bias, sexual behaviour, sexual attitude, 139
Middle-aged men, men's sexuality, methods of investigation, volunteer bias, sexual behaviour, sexual attitude, 139

Nandrolone decanoate, osteoporosis, bone mineral density, bone turnover, bone pain, 211

17β-Oestradiol, vaginal ring, postmenopausal complaint, 129
Oestrogen, β-endorphin, ovariectomy, hypothalamus, rat, 5
Oestrogen, post-menopausal, serotonin, ovariectomy, age, 23
Oophorectomy, menopause, pituitary, prolactin, 101
Oophorectomy, osteoporosis, fractures, bone mineral density, menopause, tobacco-smoking, epidemiology, 39
Osteocalcin, menopause, hormone replacement therapy, growth hormone, gonadotrophins, calcitnonin treatment, 51
Osteoporosis, bone mineralisation, estrogen substitution therapy, 205
Osteoporosis, fractures, bone mineral density, menopause, oophorectomy, tobacco-smoking, epidemiology, 39
Osteoporosis, nandrolone decanoate, bone mineral density, bone turnover, bone pain, 211
Osteoporosis, risk factors, population based, menopause, hormone replacement therapy, fractures, 89
Ovariectomy, β-endorphin, oestrogen, hypothalamus, rat, 5
Ovariectomy, menopause, headache, sex hormones, 31
Ovariectomy, menopause, hysterectomy, lipid metabolism, cardiovascular disease, 181
Ovariectomy, post-menopausal, serotonin, oestrogen, age, 23

Pituitary, menopause, oophorectomy, prolactin, 101
Population based, osteoporosis, risk factors, menopause, hormone replacement therapy, fractures, 89
Post-menopausal, serotonin, ovariectomy, oestrogen, age, 23

Post-menopausal complaint, vaginal ring, 17β-oestradiol, 129
Progestational hormones, endometrial hyperplasia, endometrium, estrogens, menopause, uterine neoplasms, 197
Prolactin, menopause, oophorectomy, pituitary, 101

Rat, β-endorphin, oestrogen, ovariectomy, hypothalamus, 5
Retrospective analysis, climacteric complaints, general population study, socio-economic factors, menopausal status, five point-analysis, 155
Risk factors, osteoporosis, population based, menopause, hormone replacement therapy, fractures, 89

Serotonin, post-menopausal, ovariectomy, oestrogen, age, 23
Sex hormones, menopause, headache, ovariectomy, 31
Sexual attitude, middle-aged men, men's sexuality, methods of investigation, volunteer bias, sexual behaviour, 139
Sexual behaviour, middle-aged men, men's sexuality, methods of investigation, volunteer bias, sexual attitude, 139
Socio-economic factors, climacteric complaints, general population study, retrospective analysis, menopausal status, five point-analysis, 155
Subcutaneous fat distribution, climacteric complaints, body shape, 167

Tobacco-smoking, osteoporosis, fractures, bone mineral density, menopause, oophorectomy, epidemiology, 39
Transdermal estradiol, estrogen replacement therapy, lipid metabolism, 191

Uterine neoplasms, endometrial hyperplasia, endometrium, estrogens, menopause, progestational hormones, 197

Vaginal ring, 17β-oestradiol, postmenopausal complaint, 129
Volunteer bias, middle-aged men, men's sexuality, methods of investigation, sexual behaviour, sexual attitude, 139

Well-being, attitude towards menopause, menopausal status, medical attention, 77
